

The spreadsheet’s “RAG” (red, amber, green) rating has significant yellow; the default was yellow and we took a very conservative approach on this rating to assure accuracy. A green rating shows our utmost confidence and verification. The CNG has been mission tasked to perform individual site visits (with Shelter TF criteria). We will be in direct communication with CNG as they assess and will gain much better situational awareness and confirm our assumptions.

Sheltering Taskforce Priorities:

- 1. Assure that shelters are accessible and have adequate capacity, resources, and staffing to meet the needs of the whole community.
- 2. Utilize CNG (MT) to provide reliable communications, complete taskforce questionnaire, and ground truth current information.
- 3. Assess each shelter to determine unmet needs.
- 4. Ensure the safety and well-being of our workforce, volunteers and community stakeholders.
- 5. Continue contingency planning to support sheltering in a rapidly changing environment.
